The four drug payment stages of Medicare Part D.

- 1 Annual Deductible – starts January 1.**
 You pay \$325 before initial coverage begins. Not all plans have a deductible.
- 2 Initial Coverage Stage – up to \$2,970.**
 During this stage, you pay a copay or coinsurance for each prescription you fill. The plan pays the rest of the cost until you reach \$2,970 in total drug costs.
- 3 Coverage Gap Stage – up to \$4,750.**
 The coverage gap, or “donut hole,” kicks in when you and your plan have paid \$2,970 in total drug costs. Once you reach \$4,750 in total out-of-pocket drug costs, you enter the catastrophic coverage stage.
- 4 Catastrophic Coverage Stage – through end of year.**
 During this stage, you pay only a small copay or coinsurance for each prescription you fill. The plan pays the rest of the cost until the end of the calendar year.
